

BSI Standards Publication

# **Solid mineral fuels — Determination of phosphorus content — Reduced molybdophosphate photometric method**

**National foreword**

This British Standard is the UK implementation of ISO 622:2016. It supersedes BS 1016-9:1977 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PTI/16, Solid mineral fuels.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
