

BSI Standards Publication

Road vehicles - Connectors for the electrical connection of towing and towed vehicles

Part 2: Connectors for braking systems and running gear of vehicles with 12 V nominal supply voltage

National foreword

This British Standard is the UK implementation of ISO 7638-2:2018.

The UK participation in its preparation was entrusted to Technical Committee AUE/32, Electrical and electronic components and general system aspects (Road vehicles).

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
