

BSI Standards Publication

Solid mineral fuels — Determination of carbonate carbon content — Gravimetric method

National foreword

This British Standard is the UK implementation of ISO 925:2019. It supersedes BS 1016-106.7:1997, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PTI/16, Solid mineral fuels.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
