

Representation of results of particle size analysis —

Part 1: Graphical representation

ICS 19.120

National foreword

This British Standard reproduces verbatim ISO 9276-1:1998, including Corrigendum February 2004, and implements it as the UK national standard. The UK participation in its preparation was entrusted by Technical Committee LBI/37, Sieves, screens and particle sizing, to Subcommittee LBI/37/4, Sizing by methods other than sieving, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

The first edition (1990) of ISO 9276-1 was not implemented as a British Standard. Several additional Parts of ISO 9276 were in preparation at the time of publication of the second edition of this Part, no other Parts having been published.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ISO title page, page ii, pages 1 to 9 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 October 1998

Contents

	Page
National foreword	Inside front cover
Foreword	ii
1 Scope	1
2 Normative reference	1
3 Symbols	1
4 Particle size, measures and types	2
5 Graphical representation	3
6 Graphical representation of cumulative and density distributions on a logarithmic abscissa	6
Annex A (informative) Example of graphical representation of particle size analysis results	8
Figure 1 — Coordinates for the representation of particle size analysis data	2
Figure 2 — Histogram of a density distribution function $\bar{q}_r(x)$	4
Figure 3 — Cumulative distribution $Q_r(x)$	5
Figure 4 — Density distribution $q_r(x)$	6
Figure A.1 — Histogram $\bar{q}_3^*(x)$ by mass plotted on graph paper with a linear abscissa	9
Figure A.2 — Cumulative distribution $Q_3(x)$ by mass plotted on graph paper with a logarithmic abscissa	9
Figure A.3 — Histogram $\bar{q}_3^*(\ln x)$ by mass plotted on graphic paper with a logarithmic abscissa	9
Figure A.4 — Cumulative distribution $Q_3(\ln x)$ by mass plotted on graph paper with a logarithmic abscissa	9
Table 1 — Symbols for distributions	3
Table A.1 — Calculation of the histogram and the cumulative distribution	8
