Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Textiles and Clothing Standards Policy Committee (TCM/-) to Technical Committee TCM/14, upon which the following bodies were represented:

- All England Women’s Hockey Association
- British Amateur Gymnastics’ Association
- British Athletic Federation
- British Sports and Allied Industries’ Federation
- Central Council of Physical Recreation
- Consumer Policy Committee of BSI
- Department of Education and Science
- Department of the Environment (Building Research Establishment)
- Department of Trade and Industry (Consumer Safety Unit, CA Division)
- English Basketball Association
- Gymnasium Equipment Manufacturers’ Association
- Home Office
- Institute of Trading Standards Administration
- Physical Education Association of Great Britain and Northern Ireland
- Sports Council
- Sports Hall and Fitness Equipment Association

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- Scottish National Ski Council Ltd.
- Ski Industry of Great Britain

This British Standard, having been prepared under the direction of the Textiles and Clothing Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 March 1994

National foreword

This British Standard reproduces verbatim ISO 9462:1993 and implements it as the UK national standard.

This British Standard is published under the direction of the Textiles and Clothing Standards Policy Committee whose Technical Committee TCM/14 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from Customer Services, Publications, BSI, Linford Wood, Milton Keynes, MK14 6LE.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ISO title page, pages ii to iv, pages 1 to 15 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 9462 was prepared by Technical Committee ISO/TC 83, *Sports and recreational equipment*, Sub-Committee SC 3, *Ski bindings*.

This second edition cancels and replaces the first edition (ISO 9462:1988), of which it constitutes a technical revision.

Annex A forms an integral part of this International Standard. Annex B is for information only.
