

**Implementation of  
ISO/IEC 10279:1991**

# **Information technology — Programming languages — Full BASIC**

# Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Information Systems Technology Standards Policy Committee (IST/-) to Technical Committee IST/5, upon which the following bodies were represented:

- British APL Association
- British Computer Society
- Department of Trade and Industry (National Physical Laboratory)
- Electricity Industry in United Kingdom
- GAMBICA (BEAMA Ltd.)
- HM Treasury (Central Computer and Telecommunications Agency)
- Information Systems Committee of the Universities Funding Council
- Institution of Electrical Engineers
- Loughborough University of Technology
- National Computing Centre Ltd.
- Rutherford Appleton Laboratory
- University of London
- User Standards Forum for Information Technology (Institute of Data Processing Management)
- Coopted members

This British Standard, having been prepared under the direction of the Information Systems Technology Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 31 January 1992

## National foreword

This British Standard reproduces verbatim ISO/IEC 10279:1991 including Amendment 1:1994 and implements it as the UK national standard.

This British Standard is published under the direction of the Information Systems Technology Standards Policy Committee whose Technical Committee IST/5 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from BSI Sales Department, BSI, Linford Wood, Milton Keynes, MK14 6LE.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

**Compliance with a British Standard does not of itself confer immunity from legal obligations.**

### Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ISO/IEC title page, pages ii to iv, pages 1 to 11 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
