

BSI Standards Publication

Telecommunications and information exchange between systems — Future network architecture

Part 1: Switching and routing

National foreword

This British Standard is the UK implementation of [ISO/IEC 21558-1:2022](#).

The UK participation in its preparation was entrusted to Technical Committee IST/6, Data communications.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.

This publication is provided as is, and is to be used at the recipient's own risk.

The recipient is advised to consider seeking professional guidance with respect to its use of this publication.

This publication is not intended to constitute a contract. Users are responsible for its correct application.

Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Abbreviated terms	1
5 Network elements and links	2
5.1 Levels of service	2
5.2 Links	2
5.3 Topology	2
6 Service interfaces	2
6.1 Service provided to the layers above	2
6.2 Service required from the layers below	3
7 Flows	3
7.1 General	3
7.2 AV flows	3
7.3 Connection-oriented IT flows	3
7.4 Connectionless IT flows	3
8 IT services	4
8.1 Packet format	4
8.2 QoS considerations	4
8.3 Carriage over other technologies	4
9 AV services	4
9.1 Synchronisation domains	4
9.2 Packet format	5
9.3 QoS considerations	5
9.3.1 Flows within an island	5
9.3.2 AV flows not within an island	5
9.3.3 All AV flows	5
9.4 Slots and allocations	5
9.5 Virtual links	6
10 Signalling service	6
