

Implementation of
ISO/IEC 7498-4:1989

Information processing systems — Open Systems Interconnection — Basic Reference Model —

Part 4: Management framework

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Information Technology Systems Standards Policy Committee (IST/-) to Technical Committee IST/21, upon which the following bodies were represented:

- Association for Payment Clearing Services
- British Computer Society
- British Gas plc
- British Railways Board
- British Telecommunications plc
- Computing Services Association
- Department of Trade and Industry [Alvey (Advanced Network Systems Architecture)]
- Department of Trade and Industry (Information Technology Division)
- Department of Trade and Industry (National Physical Laboratory)
- EEA (the Electronics and Business Equipment Association)
- HM Treasury (Central Computer and Telecommunications Agency)
- Institute of Chartered Secretaries and Administrators
- Institution of Electrical Engineers
- Inter-universities Computing Committee
- Joint Network Team
- Mercury Communications Limited
- Ministry of Defence
- National Health Service
- Post Office
- United Kingdom Atomic Energy Authority
- University of London Computer Centre

This British Standard, having been prepared under the direction of the Information Technology Systems Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 28 October 1990

Text of ISO/IEC 7498-4	1

National foreword

This British Standard reproduces verbatim ISO/IEC 7498:1989 and implements it as the UK national standard.

This British Standard is published under the direction of the Information Technology Systems Standards Policy Committee whose Technical Committee IST/21 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from BSI Sales Department, BSI, Linford Wood, Milton Keynes, MK14 6LE.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ISO/IEC title page, pages ii to iv, pages 1 to 10 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Contents

	Page
Foreword	iii
Introduction	1
1 Scope	1
2 Normative references	1
3 Definitions and abbreviations	2
4 Concepts in OSI Management	2
4.1 Users' requirements of OSI Management	2
4.2 The OSI Management environment	2
4.3 Managed objects, their attributes and operations	3
4.4 Management relationships between open systems	3
4.5 OSI Management functional areas	3
5 Model for OSI Management	4
5.1 Overview	4
5.2 OSI Management structure	4
5.3 Supporting functionality required by OSI Management	4
5.4 Management Information Base	5
5.5 Flow of management control	5
5.6 Flow of management information	5
6 OSI Management specifics	5
6.1 OSI Management standardization	5
6.2 OSI Management operation	6
6.3 The form of management information exchanges	7
6.4 OSI Management conformance	7
Annex A (informative) Comments relating to the OSI Management Framework	8
A.1 Introduction	8
A.2 Abbreviations	8
A.3 Brief Overview of OSI Management Scope and Concepts	8
A.4 Systems Management Standards	10
A.5 Management Information and the Management Information Base	10
