Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Information Systems Technology Standards Policy Committee (IST/-) to Technical Committee IST/6, upon which the following bodies were represented:

- Association for Payment Clearing Services
- British Computer Society
- British Telecommunications plc
- Business Equipment and Information Technology Association
- Department of Trade and Industry (Information Technology Standards Unit)
- Department of Trade and Industry (National Physical Laboratory)
- Electricity Supply Industry in England and Wales
- Electronic Engineering Association
- HM Treasury (Central Computer and Telecommunications Agency)
- Information Technology Users' Standards Association
- Institute of Data Processing Management
- Inter-universities Computing Committee
- Joint Network Team
- National Computing Centre Ltd.
- National Health Service
- OFTEL (Office of Telecommunications)
- Post Office
- Telecommunication Engineering and Manufacturing Association
- Telecommunications Managers' Association

This British Standard, having been prepared under the direction of the Information Systems Technology Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 28 February 1991

Text of ISO/IEC 8881	1

National foreword

This British Standard reproduces verbatim ISO/IEC 8881:1989, including Technical Corrigendum 1, and implements it as the UK national standard.

This British Standard is published under the direction of the Information Systems Technology Standards Policy Committee whose Technical Committee IST/6 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from BSI Sales Department, BSI, Linford Wood, Milton Keynes, MK14 6LE.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ISO/IEC title page, pages ii to iv, pages 1 to 9 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

**Information processing systems — Data
communications — Use of the X.25 packet level
protocol in local area networks**

*Systèmes de traitement de l'information — Communication de données — Emploi
du protocole X.25 au niveau paquet dans des réseaux locaux*
