Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee FSH/16, upon which the following bodies were represented:

- British Cable Makers Confederation
- British Electrical Systems Association (BEAMA Ltd.)
- British Plastics Federation
- British Railways Board
- British Rigid Urethane Foam Manufacturers' Association
- British Rubber Manufacturers Association Ltd.
- British Textile Technology Group
- Chemical Industries Association
- Chief and Assistant Chief Fire Officers Association
- Consumer Policy Committee of BSI
- Department of Health
- Department of the Environment (Building Research Establishment)
- Department of Trade and Industry (Consumer Safety Unit, CA Division)
- International Wool Secretariat
- Loss Prevention Council
- Queen Mary and Westfield College
- RAPRA Technology Ltd.
- Warrington Fire Research Centre

This British Standard, having been prepared under the direction of the Consumer Products and Services Sector Board, was published under the authority of the Standards Board and comes into effect on 15 December 1996

7 Recommended hazard assessment procedure	6
Annex A (informative) Bibliography	8

National foreword

This British Standard reproduces verbatim ISO/TR 9122-6:1994 and implements it as the UK national standard. It is related to PD 6503-1:1990 which is the UK adoption of ISO/TR 9122-1:1989. When ISO/TR 9122-1:1989 is revised, it is intended that it will be implemented as the UK national standard.

The Technical Committee had earlier decided not to implement ISO/TR 9122-2 as the UK national standard but to publish a national document (PD 6503-2) instead. PD 6503-2:1988 remains current until the 1990 edition of ISO/TR 9122-2 is revised when it is envisaged that the new edition of ISO/TR 9122-2 will be implemented as a British Standard.

To avoid any further confusion, the decision has been made to implement all the remaining Parts of the ISO/TR 9122 series as British Standards rather than producing national documents as further Parts of PD 6503.

This British Standard is published under the direction of the Consumer Products and Services Sector Board whose Technical Committee FSH/16 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from Customer Services, BSI, 389 Chiswick High Road, London W4 4AL.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ISO TR title page, page ii, pages 1 to 8 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

TECHNICAL REPORT

ISO TR 9122-6

First edition
1994-02-01

Toxicity testing of fire effluents —

Part 6:

Guidance for regulators and specifiers on the assessment of toxic hazard in fires in buildings and transport

Essais de toxicité des effluents du feu —

Partie 6: Directives destinées aux législateurs et aux spécificateurs pour l'évaluation du risque de toxicité des incendies dans les bâtiments et dans le transport
