Foreword

This Part of this British Standard has been prepared under the authority of the Shipbuilding and Marine Industry Standards Committee, and is based on ISO Recommendation R 613, “*Magnetic compasses, binnacles and azimuth reading devices, Class B — General requirements*”. It forms Part 2 of BS MA 2 dealing with magnetic compasses and their accessories. The other parts are as follows:

- *Part 1: Class A instruments;*
- *Part 3: Recommendations for the positioning of compasses;*
- *Part 4: Glossary of terms;*
- Part 5 (in course of preparation) will refer to tests and certificates for type and individual compasses and accessories.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 5 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Amendments issued since publication

Amd. No.	Date	Comments

This British Standard, having been approved by the Shipbuilding & Marine Industry Standards Committee, was published under the authority of the Executive Board on 28 November 1969
