Foreword

This British Standard has been prepared under the authority of the Shipbuilding and Marine Industry Standards Committee and is based on a proposal of the British Ship Research Association.

This standard makes reference to the following British Standards:

BS 1560, *Steel pipe flanges (nominal sizes ½ in to 24 in) and flanged fittings for the petroleum industry — Part 2: Metric dimensions.*

BS 3601, *Steel pipes and tubes for pressure purposes. Carbon steel: ordinary duties.*

BS 3643, *ISO metric screw threads — Part 2: Limits and tolerances for coarse pitch series threads.*

BS 4190, *ISO metric black hexagon bolts, screws and nuts.*

BS 4360, *Weldable structural steels.*

BS 4439, *Screwed studs for general purposes.*

BS 4504, *Flanges and bolting for pipes, valves and fittings Metric series.*

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 7 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Amendments issued since publication

Amd. No.	Date	Comments

This British Standard, having been approved by the Shipbuilding and Marine Industry Standards Committee, was published under the authority of the Executive Board on 3 July 1974
