Foreword

This British Standard has been prepared under the authority of the Shipbuilding and Marine Industry Standards Committee and is based on a proposal of The British Ship Research Association.

The standard applies to bilge drain and suction hats which are provided in small compartments or sub-divisions of tank top areas, flats or between decks in order to facilitate the removal of bilge water by pumping or gravity methods. This standard makes reference to the following British Standards:

BS 499, *Welding terms and symbols — Part 2: Symbols for welding.*

BS 729, *Hot dip galvanized coatings on iron and steel articles.*

BS 1387, *Steel tubes and tubulars suitable for screwing to BS 21 pipe threads.*

BS 1449, *Steel plate, sheet and strip — Part 1: Carbon steel plate sheet and strip.*

BS 1669, *Industrial perforated plates.*

BS 2874, *Copper and copper alloys. Rods and sections (other than forging stock).*

BS 3601, *Steel pipes and tubes for pressure purposes. Carbon steel: ordinary duties.*

BS 3692, *ISO metric precision hexagon bolts, screws and nuts.*

BS 4360, *Weldable structural steels.*

BS 4504, *Flanges and bolting for pipes, valves and fittings. Metric series.*

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 and 2 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This British Standard, having been approved by the Shipbuilding and Marine Industry Standards Committee, was published under the authority of the Executive Board on 29 July 1974
