

CONFIRMED
JULY 1999

Series 1 shipborne barges —

Part 3: Specification for the arrangement, dimensions and method of test for lifting post castings

[ISO title: Shipbuilding — Shipborne barges, series 1 — Lifting
post casting — Arrangement, dimensions and method of testing]

UDC 629.122.3:629.014.3

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Shipbuilding and Marine Standards Committee (SME/-) to Technical Committee SME/14, upon which the following bodies were represented:

- Association of Master Lightermen and Barge Owners (Port of London)
- British Tugowners' Association
- British Waterways Board
- HM Customs and Excise
- Shiprepairers' and Shipbuilders' Independent Association

This British Standard, having been prepared under the direction of the Shipbuilding and Marine Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 July 1987

National foreword

This Part of BS MA 87 has been prepared under the direction of the Shipbuilding and Marine Standards Committee and is identical with ISO 6764:1985 “*Shipbuilding — Shipborne barges, series 1 — Lifting post casting — Arrangement, dimensions and methods of testing*”, published by the International Organization for Standardization (ISO).

ISO 6764 was produced as a result of international discussion in which the UK took an active part.

Terminology and conventions. The text of the International Standard has been approved as suitable for publication as a British Standard without deviation. Some terminology and certain conventions are not identical with those used in British Standards; attention is drawn especially to the following.

Where the words “International Standard” appear, referring to this standard, they should be read as “Part of BS MA 87”.

Cross-references

International Standard	Corresponding British Standard
ISO 4175:1979	BS MA 87 <i>Series 1 shipborne barges</i> Part 1:1980 <i>Specification for main dimensions</i>

The Technical Committee has reviewed the provisions of ASTM A 609, ASTM E 186 and ASTM E 709¹⁾, to reference is made in the text and has decided that they are acceptable for use in conjunction with this standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
