

Specification for

Crew portable protective breathing equipment for use during aircraft emergencies

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Aerospace Standards Policy Committee (ACE/-) to Technical Committee ACE/38, upon which the following bodies were represented:

- British Airways
- British Compressed Gases Association
- Civil Aviation Authority (Airworthiness Division)
- Ministry of Defence
- Society of British Aerospace Companies Limited
- Society of British Gas Industries

This British Standard, having been prepared under the direction of the Aerospace Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 December 1992

Foreword

This British Standard has been prepared under the direction of the Aerospace Standards Policy Committee. It gives the requirements for the design, performance and testing of portable protective breathing equipment for use by crew during specified emergency conditions on board an aircraft.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
