Foreword

BS SP 126 & 127:1959+A3:2011 supersedes BS SP 127:1959+A2:2009, which is withdrawn.

This British Standard has been prepared at the request of the aircraft industry to provide a range of facing washers for use with aircraft bolts and nuts with Unified hexagons.

NOTE The figures in British units are to be regarded as the standard. A table to assist in the conversion of the dimensions to approximate metric equivalents is given in the Appendix. More accurate conversions should be based on the tables in BS 350.

The start and finish of text introduced or altered by Amendments No. 2 and No. 3 are indicated in the text by tags **A2** **A2** and **A3** **A3**. Minor editorial changes are not tagged.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

These British Standards, having been approved by the Aircraft Industry Standards Committee and endorsed by the Chairman of the Engineering Divisional Council, were published under the authority of the General Council of the Institution on 31 March 1959
