

Specification for washers, spring, double coil (inch sizes), steel, cadmium plated and phosphor bronze — For aircraft

Foreword

Publishing information

This British Standard is published by BSI Standards Limited, under licence from The British Standards Institution. It was prepared by Technical Committee ACE/12, *Aerospace fasteners and fastening*. A list of organizations represented on this committee can be obtained on request to its secretary.

Supersession

This British Standard supersedes BS SP 55 and 56:1953+A2:1962, which is withdrawn.

Information about this document

Text introduced or altered by Amendment No. 3 is indicated in the text by tags **A3** **A3**. Minor editorial changes are not tagged.

Contractual and legal considerations

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

CAUTION. BS SP 55 washers have cadmium as a plating material which has been restricted and/or banned for use in many countries owing to environmental and health concerns; they should not be used in new product designs. Local officials should be consulted about any concerns on using cadmium-plated parts.

These British Standards, having been approved by the Aircraft Industry Standards Committee and endorsed by the Chairman of the Engineering Divisional Council, were published under the authority of the General Council of the Institution on 29 June 1953
