

Specification for

Pretreatment primer for aerospace purposes

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Aerospace Standards Policy Committee (ACE/-) to Technical Committee ACE/44, upon which the following bodies were represented:

- Metal Finishing Association
- Ministry of Defence
- Oil and Colour Chemists' Association
- Paintmakers' Association of Great Britain
- Society of British Aerospace Companies Ltd.

This British Standard, having been prepared under the direction of the Aerospace Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 28 June 1991

Foreword

This British Standard, prepared under the direction of the Aerospace Standards Policy Committee, is one of a series on paints and varnishes suitable for aerospace purposes. It specifies the requirements of a two pack pretreatment primer which may be used with British Standard X series finishing schemes.

It has been assumed in the drafting of this specification that the execution of its provisions is entrusted to appropriately qualified and experienced people.

The quality assurance authority and approving authority referred to in this standard is as stated in the contract or order, or the accredited representative of the authority stated, as instructed by the prime contractor.

WARNING. This British Standard calls for the use of substances and/or procedures that may be injurious to health if adequate precautions are not taken. It refers only to technical suitability in no way absolves either the designer, the producer, the supplier or the user from statutory legal obligations relating to health and safety at any stage of manufacture or use.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
