National foreword

This British Standard reproduces verbatim ISO 14625:1999 and implements it as the UK national standard.

The UK participation in its preparation was entrusted to Technical Committee ACE/68, Space systems and operations, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ISO title page, pages ii to vi, pages 1 to 14, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This British Standard, having been prepared under the direction of the Engineering Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 June 1999

Foreword	v
Introduction	1
1 Scope	1
2 Normative references	1
3 Definitions, symbols and abbreviated terms	2
3.1 Definitions	2
3.2 Symbols and abbreviated terms	2
4 General	3
5 Functional designations	3
5.1 General	3
5.2 Servicing	3
5.3 Checkout and test	3
5.4 Handling and transportation	3
5.5 Auxiliary	3
5.6 Umbilical	3
6 Characteristics	3
6.1 Performance characteristics	3
6.1.1 Operability	3
6.1.2 Interfaces	3
6.1.3 Producibility	4
6.2 Physical characteristics	4
6.2.1 Limited life	4
6.2.2 Useful life	4
6.2.3 Protective coating	4
6.2.4 Colours	4
6.2.5 Metric system	4
6.2.6 Redundancy	4
6.3 Reliability	4
6.4 Maintainability	4
6.5 Environmental conditions	4
6.5.1 General	4
6.5.2 Natural environment	4
6.5.3 Launch-induced environment	4
6.5.4 Controlled interior environment	5
6.5.5 Controlled clean environment	5
6.5.6 Uncontrolled interior environment	5
6.5.7 Fire/explosion hazard environment	5
6.5.8 Environmental test methods	5
6.5.9 Seismic environment	5
6.6 Transportability	5
7 Documentation	5
7.1 Drawings and specifications	5
7.2 Technical documentation	5
7.3 Operations and maintenance documentation (OMD)	5
8 Supply support	5
9 Personnel and training	5
10 Qualification	6
11 Quality assurance	6
11.1 General	6
11.2 Responsibility for verification	6

	Page
11.3 Testing	6
11.3.1 General	6
11.3.2 Load test	6
11.3.3 Non-destructive test (NDT)	6
11.3.4 Test reports	6
11.3.5 Instrumentation calibration	6
11.4 Quality conformance verification	7
12 Packaging	7
12.1 Preservation and packaging	7
12.2 Shipping containers	7
12.3 Weight and size	7
12.4 Parts protection	7
12.5 Precision clean parts	7
12.6 Marking	7
12.7 Environmental recording instruments	7
12.8 Transportation and storage	7
13 Design and construction requirements	7
13.1 Structural design	7
13.1.1 Structural steel and other structures	7
13.1.2 Safety factor	7
13.1.3 Critical weld	7
13.2 Mechanical design	8
13.2.1 Pneumatics	8
13.2.2 Cryogenics	8
13.2.3 Hypergols	8
13.2.4 Hydrocarbons	8
13.2.5 Hydraulics	8
13.2.6 Environmental control system (ECS) and coolant servicing systems	8
13.2.7 Life support	8
13.2.8 Lifting devices	8
13.2.9 Springs	8
13.2.10 Umbilical design	8
13.2.11 Torque limits	8
13.2.12 Tethers	8
13.2.13 Jacks	8
13.2.14 Transportation equipment	8
13.2.15 Pressure vessels	9
13.3 Electrical/electronic design	9
13.3.1 Electrical control and monitor equipment	9
13.3.2 Pneumatic and hydraulic mechanical components	9
13.3.3 Internal wiring	9
13.3.4 Pyrotechnic systems	9
13.3.5 Electrical power	9
13.3.6 Bonding and grounding	9
13.3.7 Hazard-proofing	9
13.3.8 Lightning protection	9
13.3.9 Software	9
