5.1 General	4
5.2 Fuel oil appliances	4
5.3 Liquefied petroleum gas appliances	5
6 Storage of fuel supplies	6
6.1 Fuel oil	6
6.2 Liquefied petroleum gas	6
7 Fire precautions	6
7.1 Fire	6
7.2 Action in the event of fire	6

This Code of Practice makes reference to the following British Standards:

BS 799, *Oil burning equipment.*

BS 1945, *Fireguards for heating appliances (gas, electric and oil burning).*

BS 3212, *Flexible tubing or hose (including connections where fitted) for use in butane/propane gas installations.*

BS 3245, *Jointing compounds for use in liquefied petroleum gas appliances and installations.*

BS 4096, *Non-domestic space heaters burning liquefied petroleum gases.*

BS 4256, *Oil-burning air heaters — Part 1: Non-domestic, transportable fan-assisted heaters.*

CP 337, *Flues for gas appliances up to 150 000 Btu/h rating.*

CP 1003, *Electrical apparatus and associated equipment for use in explosive atmospheres of gas or vapour other than mining applications.*

CP 3002, *Oil firing — Part 1: Installations burning Class D fuel oil and C.T.F. 50 — Part 2: Installations burning Class C and Class D fuel oils for vaporizing burners.*

This Code of Practice represents a standard of good practice and therefore takes the form of recommendations. Compliance with it does not confer immunity from relevant statutory and legal requirements.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 7 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
