Table A.1 – Commissioning recommendations 10

Summary of pages

This document comprises a front cover, an inside front cover, pages i to iv, pages 1 to 12, an inside back cover and a back cover.

Foreword

Publishing information

This Draft for Development was published by BSI on 31 May 2010. It was prepared by Subcommittee GW/1/2, *Installed alarm systems*, under the authority of Technical Committee GW/1, *Electronic security systems*. A list of organizations represented on this committee can be obtained on request to its secretary.

Supersession

This Draft for Development supersedes DD 263:2007, which is withdrawn.

Relationship with other publications

This Draft for Development incorporates maintenance recommendations formerly included in BS 4737, *Intruder alarm systems in buildings*, and is intended to be used in conjunction with PD 6662, *Scheme for the application of European Standards for intruder and hold-up alarm systems* to provide detail necessary for the implementation of the relevant provisions of DD CLC/TS 50131-7.

Information about this document

It is being issued in the Draft for Development series of publications and is of a provisional nature and should be applied on a provisional basis so that information and experience of its practical application can be obtained.

A review of this Draft for Development will be carried out not later than 2 years after its publication.

Notification of the start of the review period, with a request for the submission of comments from users of this Draft for Development, will be made in an announcement in the appropriate issue of *Update Standards*¹⁾.

According to the replies received, the responsible BSI Committee will determine whether the Draft for Development can be converted into a British Standard or what other action should be taken.

Observations which it is felt should receive attention before the official call for comments will be welcomed.

These should be sent to the Secretary of BSI Technical Committee GW/1 at British Standards House, 389 Chiswick High Road, London W4 4AL.

Use of this document

As a code of practice, this Draft for Development takes the form of guidance and recommendations. It should not be quoted as if it were a specification and particular care should be taken to ensure that claims of compliance are not misleading.

Any user claiming compliance with this Draft for Development is expected to be able to justify any course of action that deviates from its recommendations.

BSI permits the reproduction of DD 263:2010, Table A.1. This reproduction is only permitted where it is necessary for the user to work/record findings during each application of the Draft for Development.

Presentational conventions

The provisions in this Draft for Development are presented in roman (i.e. upright) type. Its recommendations are expressed in sentences in which the principal auxiliary verb is “should”.

Commentary, explanation and general informative material is presented in smaller italic type, and does not constitute a normative element.

The word “should” is used to express recommendations of this Draft for Development. The word “may” is used in the text to express permissibility, e.g. as an alternative to the primary recommendation of the Clause. The word “can” is used to express possibility, e.g. a consequence of an action or an event.

Notes and commentaries are provided throughout the text of this Draft for Development. Notes give references and additional information that are important but do not form part of the recommendations. Commentaries give background information.

Contractual and legal considerations

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a Draft for Development cannot confer immunity from legal obligations.
