

Advanced technical ceramics — Methods of test for ceramic coatings —

Part 5: Determination of porosity

Committees responsible for this Draft for Development

The preparation of this Draft for Development was entrusted to Technical Committee RPI/13, Advanced technical ceramics, upon which the following bodies were represented:

- British Ceramic Research Ltd.
- British Industrial Ceramic Manufacturers' Association
- British Steel Industry
- Bureau of Analysed Samples Limited
- China Clay Association
- Ministry of Defence
- Refractories Association of Great Britain
- Society of Glass Technology

This Draft for Development, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 August 1995

National foreword

This Draft for Development has been prepared by Technical Committee RPI/13 and is the English language version of ENV 1071-5:1995 *Advances technical ceramics — Methods of test for ceramic coatings — Part 5: Determination of porosity* published as a European Prestandard by the European Committee for Standardization (CEN).

This publication is not to be regarded as a British Standard.

It is being issued in the Draft for Development series of publications and is of a provisional nature because it is considered that further experience is required in its application before it is converted into a British Standard. It should be applied on this provisional basis, so that information and experience of its practical application may be obtained for reporting to the CEN committee responsible for converting the prestandard into a European Standard.

The UK did not support European adoption of this prestandard.

A review of the prestandard will be carried out 2 years after its publication.

Submission of comments from users of this publication is requested.

According to the replies received, the responsible BSI committee will judge whether to support the conversion into a European Standard or what other action should be taken.

Comments should be sent in writing to the Secretary of RPI/13 at BSI, 389 High Road, London W4 4AL quoting the document reference (DD ENV 1071-5), the relevant clause and, where possible, a proposed revision withing 2 years of the issue of this document.
