National foreword

This Draft for Development has been prepared by Technical Committee CCM/41 and is the English language version of European Prestandard ENV 1178-1:1994 *Furniture — Children’s high chairs for domestic use — Part 1: Safety requirements*, published by the European Committee for Standardization (CEN). It was derived from ISO/DIS 9221-1 published by the International Organization for Standardization (ISO).

This publication is not to be regarded as a British Standard

It is being issued in the Draft for Development series of publications and is of a provisional nature because more experience of the methods described is required. It should be applied on this provisional basis so that information and experience of its practical application may be obtained.

Comments arising from the use of this Draft for Development are requested so that UK experience can be reported to the European organization responsible for its conversion to a European Standard. A review of this publication will be initiated 2 years after its publication by the European organization so that a decision can be taken on its status at the end of its three-year life. The commencement of the review period will be notified by an announcement in *BSI News*.

According to the replies received by the end of the review period, the responsible BSI Committee will decide whether to support the conversion into a European Standard, to extend the life of the prestandard or to withdraw it. Comment should be sent in writing to the Secretary of BSI Technical Committee CCM/41 at BSI, 389 Chiswick High Road, London W4 4AL giving the document reference and clause number quoting where possible, an appropriate revision of the text.
