Committees responsible for this Draft for Development

The preparation of this Draft for Development was entrusted by Technical Committee TCI/35, Geotextiles, upon which the following bodies were represented:

- Association of Consulting Engineers
- British Polyolefin Textiles Association
- British Textile Technology Group
- Chemical Industries Association
- Department of the Environment (Building Research Establishment)
- Department of Transport (Transport Research Laboratory)
- Department of Transport (Highways Agency)
- Environment Agency
- ERA Technology Ltd.
- Federation of Civil Engineering Contractors
- Institute of Asphalt Technology
- Institute of Materials
- Institute of Wastes Management
- Institution of Chemical Engineers
- Institution of Civil Engineers
- National Rivers Authority
- Society of Engineers' Incorporated

This Draft for Development, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 March 1997

National foreword

This Draft for Development has been prepared by Technical Committee TCI/35 and is the English language version of ENV 12224:1996 *Geotextiles and geotextile-related products — Determination of the resistance to weathering*, published by the European Committee for Standardization (CEN). ENV 12224 was produced as a result of international discussion in which the United Kingdom participated.

Cross-references

Publication referred to	Corresponding British Standard
ENV 12226	DD ENV 12226:1997 <i>Geotextiles and geotextile-related products — General tests for evaluation following durability testing</i> BS 2782 <i>Methods of testing plastics</i> Part 5 <i>Optical and colour properties, weathering</i>
ISO 4892-1	Method 540D:1995 <i>Methods of exposure to laboratory light sources. General guidance</i>
ISO 4892-2	Method 540E:1995 <i>Methods of exposure to laboratory light sources. Xenon-arc sources</i>
ISO 4892-3	Method 540F:1995 <i>Methods of exposure to laboratory light sources. Fluorescent UV lamps</i>

This publication is not to be regarded as a British Standard

It is being issued in the Draft for Development series of publications and is of a provisional nature because there is at present insufficient experience in the use of the test method. It should be applied on this provisional basis, so that information and experience of its practical application may be obtained and reported to the responsible CEN Technical Committee. Users of this Draft for Development are invited to comment on its technical content, ease of use and any ambiguities or anomalies. These comments will be taken into account when preparing the UK national response to CEN on the question of whether the ENV can be converted to an EN. Comments should be sent in writing to the Secretary of BSI Technical Committee TCI/35 at BSI, 389 Chiswick High Road, London, W4 4AL, quoting this Draft for Development, the relevant clause number and proposed revision, within 2 years of the issue of this Draft for Development.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ENV title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
