

Domestic furniture — Seating — Test methods for the determination of durability of upholstery

ICS 97.140

National foreword

This Draft for Development is the official English language version of ENV 14443:2004.

This publication is not to be regarded as a British Standard.

It is being issued in the Draft for Development series of publications and is of a provisional nature because the European test method has been developed in order that laboratories and manufacturers can carry out testing of upholstered seating in the same manner so that test results may be compared.

It has been the intention to include an annex with test methods for textiles and leather, but suitable CEN standards are not yet available.

This European Pre-standard does not include test methods for arms and backs of upholstered furniture. During the ENV period (3 years) member countries are asked to investigate into the need for such test methods and if needed to submit proposals for the future revision.

It should be applied on this provisional basis, so that information and experience of its practical application may be obtained.

Comments arising from the use of this Draft for Development are requested so that UK experience can be reported to the European organization responsible for its conversion to a European Standard. A review of this publication will be initiated 2 years after its publication by the European organization so that a decision can be taken on its status at the end of its 3-year life. Notification of the start of the review period will be made in an announcement in the appropriate issue of *Update Standards*.

According to the replies received by the end of the review period, the responsible BSI Committee will decide whether to support the conversion into a European Standard, to extend the life of the Technical Specification or to withdraw it. Comments should be sent in writing to the Secretary of BSI Technical Committee FW/2, Domestic and Contract Furniture, at 389 Chiswick High Road, London W4 4AL, giving the document reference and clause number and proposing, where possible, an appropriate revision of the text.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

Summary of pages

This document comprises a front cover, an inside front cover, the ENV title page, pages 2 to 15 and a back cover.

The BSI copyright notice displayed in this document indicates when the document was last issued.

This Draft for Development was published under the authority of the Standards Policy and Strategy Committee on 28 July 2004

English version

Domestic furniture - Seating - Test methods for the determination of durability of upholstery

Meubles à usage domestique - Sièges - Méthodes d'essai
pour la détermination de la durabilité du rembourrage

Möbel für den Wohnbereich - Polstermöbel - Prüfverfahren
zur Bestimmung der Dauerhaltbarkeit der Sitzpolsterung
am Möbel

This European Prestandard (ENV) was approved by CEN on 2 January 2004 as a prospective standard for provisional application.

The period of validity of this ENV is limited initially to three years. After two years the members of CEN will be requested to submit their comments, particularly on the question whether the ENV can be converted into a European Standard.

CEN members are required to announce the existence of this ENV in the same way as for an EN and to make the ENV available promptly at national level in an appropriate form. It is permissible to keep conflicting national standards in force (in parallel to the ENV) until the final decision about the possible conversion of the ENV into an EN is reached.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document (ENV 14443:2004) has been prepared by Technical Committee CEN/TC 207 "Furniture", the secretariat of which is held by UNI.

Annex A is informative.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to announce this European Prestandard: Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Introduction

This European test method has been developed in order that laboratories and manufacturers can carry out testing of upholstered seating in the same manner so that test results may be compared.

It has been the intention to include an annex with test methods for textiles and leather, but suitable CEN standards are not yet available.

This European Prestandard does not include test methods for arms and backs of upholstered furniture. During the ENV period (3 years) member countries are asked to investigate into the need for such test methods and if needed to submit proposals for the future revision.
