

Electrical arc test methods for material and garments, for use by workers at risk from exposure to an electrical arc

The European Standard ENV 50354:2001 has the status of a
British Standard

ICS 13.260; 13.340.10

National foreword

This Draft for Development is the official English language version of ENV 50354:2001.

The UK participation in its preparation was entrusted to Technical Committee PEL/78, Tools for live working, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

This Draft for Development, having been prepared under the direction of the Electrotechnical Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 August 2001

Summary of pages

This document comprises a front cover, an inside front cover, the ENV title page, pages 2 to 9 and a back cover.

**Electrical arc test methods for material and garments,
for use by workers at risk from exposure to an electrical arc**

Méthodes d'essai d'arc électrique pour
les matériaux et vêtements utilisés par
des travailleurs exposés à un risque
d'arc électrique

Störlichtbogenprüfverfahren für
Materialien und Kleidungsstücke für
Anwender, die einer Störlichtbogen-
gefährdung ausgesetzt sind

This European prestandard was approved by CENELEC on 2000-09-15 as a prospective standard for provisional application. The period of validity of this ENV is limited initially to three years. After two years the members of CENELEC will be requested to submit their comments, particularly on the question whether the ENV can be converted into a European Standard (EN).

CENELEC members are required to announce the existence of this ENV in the same way as for an EN and to make the ENV available promptly at national level in an appropriate form. It is permissible to keep conflicting national standards in force (in parallel to the ENV) until the final decision about the possible conversion of the ENV into an EN is reached.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
