

Tracheobronchial tubes — Recommendations for size designation and labelling

ICS 11.040.10

National foreword

This Draft for Development reproduces verbatim ISO/TS 16628:2003

This publication is not to be regarded as a British Standard.

It is being issued in the Draft for Development series of publications and is of a provisional nature because the document may form the basis of a full ISO standard in due course. It should be applied on this provisional basis, so that information and experience of its practical application may be obtained.

Comments arising from the use of this Draft for Development are requested so that UK experience can be reported to the international organization responsible for the Technical Specification. A review of this publication will be initiated not later than 3 years after its publication by the international organization so that a decision can be taken on its status at the end of its 3-year life. Notification of the start of the review period will be made in an announcement in the appropriate issue of *Update Standards*.

According to the replies received by the end of the review period, the responsible BSI Committee will decide whether to support the conversion into an international standard, to extend the life of the Technical Specification for another 3 years or to withdraw it. Comments should be sent in writing to the Secretary of BSI Subcommittee CH/121/2, Tracheal tubes and related equipment, at 389 Chiswick High Road, London W4 4AL, giving the document reference and clause number and proposing, where possible, an appropriate revision of the text.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This Draft for Development, was published under the authority of the Standards Policy and Strategy Committee on 11 September 2003

Tracheobronchial tubes — Recommendations for size designation and labelling

*Sondes trachéo-bronchiques — Recommandations pour la désignation
de grandeur et le marquage*

Contents

Page

Foreword	iv
Introduction	v
1 Scope	1
2 Terms and definitions	1
3 General requirements	1
3.1 Size designation of bronchial segment	1
3.2 Nominal maximum bronchoscope diameter	1
3.3 Colour coding	1
3.4 Segment differentiation	1
4 Marking	2
4.1 Use of symbols	2
4.2 Marking of tracheobronchial tubes	2
4.3 Marking on tracheobronchial tube individual pack and any insert	3
Annex A (informative) Determination of circumference of bronchial segment of tracheobronchial tubes	4
A.1 Principle	4
A.2 Apparatus	4
A.3 Procedure	4
A.4 Expression of results	4
Annex B (informative) Determination of nominal maximum bronchoscope diameter	5
B.1 Principle	5
B.2 Apparatus	5
B.3 Procedure	5
B.4 Expression of results	6
Bibliography	7
