

CORRECTION SHEET

EIA Standard RS-242

July 1961

Definitions for Electromagnetic Delay Lines

The following corrections should be noted in the subject Standard:

Page 1 - Paragraph 2.2, first sentence should be reworded as follows:

"The electrical parameters of the Delay Line are defined by the descriptions of the wave forms of the input, output and taps of the line and their relationships to each other".

Page 2 - Paragraph 3.7.2 delete "x 100"

Paragraph 3.7.3 delete "x 100"

NOTICE

EIA standards are adopted in the public interest and are designed to eliminate misunderstandings between the manufacturer and the purchaser and to assist the purchaser in selecting and obtaining without delay the proper product for its particular need. Existence of such standards does not in any respect preclude any member or non-member of EIA from manufacturing or selling products not conforming to the standard.

Any proposal of recommended standards and practices made by the Association is without any regard to whether or not their adoption may in any way involve patents on articles, materials or processes. By such action, the Association does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the recommended standards or practices.
