NOTICE

EIA Engineering Standards and Publications are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for his particular need. Existence of such Standards and Publications shall not in any respect preclude any member or non-member of EIA from manufacturing or selling products not conforming to such Standards and Publications, nor shall the existence of such Standards and Publications preclude their voluntary use by those other than EIA members, whether the standard is to be used either domestically or internationally.

Recommended Standards and Publications are adopted by EIA without regard to whether or not their adoption may involve patents on articles, materials, or processes. By such action, EIA does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the Recommended Standard or Publication.

This EIA Specification is considered to have international standardization implication, but the International Electrotechnical Commission activity has not progressed to the point where a valid comparison between the EIA standard and the IEC document can be made.

This Specification does not purport to address all safety problems associated with its use or all applicable regulatory requirements. It is the responsibility of the user of this Standard to establish appropriate safety and health practices and to determine the applicability of regulatory limitations before its use.

(APPROVED FOR USE IN THE NECQ SYSTEM AS NQ-EIA-520EAAA.)

DETAIL SPECIFICATION NUMBER

EIA-520EAAA

GENERIC SPECIFICATION NUMBER EIA-5200000

ELECTRONIC COMPONENTS OF ASSESSED
QUALITY IN ACCORDANCE WITH

BLANK DETAIL SPECIFICATION NUMBER

EIA-520EA00

OUTLINE DRAWING

Notes:

1. Original dimensions are inches.
2. The configuration is optional within the limits of the specified dimensions.

PRODUCT DESCRIPTION

DUAL-IN-LINE PACKAGE
(DIP) SWITCH, SLIDE
ACTUATED, MACHINE
INSERTABLE, SURFACE
MOUNTABLE

MULTIPLE SPST STATIONS

ELECTRICAL CIRCUIT

SEE CIRCUIT DIAGRAM

TYPICAL CONSTRUCTION

HIGH TEMPERATURE PLASTIC

APPLICATION/ ASSESSMENT LEVEL

INFORMATION ON THE AVAILABILITY OF THE COMPONENTS
QUALIFIED TO THIS SPECIFICATION IS GIVEN IN
THE QUALIFIED PRODUCTS LIST
