

ANSI/EIA-364-02D-2012(R2017)

Approved: April 10, 2012

Reaffirmed: August 18, 2017

EIA-364-02D

EIA STANDARD

TP-02D

Air Leakage Test Procedure for Electrical Connectors

EIA-364-02D

(Revision of EIA-364-02C)

April 2012

Electronic Components Industry Association

NOTICE

EIA Engineering Standards and Publications are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for his particular need. Existence of such Standards and Publications shall not in any respect preclude any member or nonmember of ECIA from manufacturing or selling products not conforming to such Standards and Publications, nor shall the existence of such Standards and Publications preclude their voluntary use by those other than ECIA members, whether the standard is to be used either domestically or internationally.

Standards and Publications are adopted by ECIA in accordance with the American National Standards Institute (ANSI) patent policy. By such action, ECIA does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the Standard or Publication.

This standard is based upon the major technical content of International Electrotechnical Commission standard 60512-14-4 (was 512-7, test 14d), immersion, waterproof, 2006-03. It conforms in all essential respects this IEC standard.

This Standard does not purport to address all safety problems associated with its use or all applicable regulatory requirements. It is the responsibility of the user of this Standard to establish appropriate safety and health practices and to determine the applicability of regulatory limitations before its use.

(From Standards Proposal No. SP-5393.01 formulated under the cognizance of the CE-2.0 National Connector Standards Committee).
