Approved: December 14, 1988

EIA STANDARD

EIA Standards For Electron Tubes

EIA-552

EIA-552

JANUARY 1989

ELECTRONIC INDUSTRIES ASSOCIATION
ENGINEERING DEPARTMENT

NOTICE

EIA Engineering Standards and Publications are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for his particular need. Existence of such Standards and Publications shall not in any respect preclude any member or non-member of EIA from manufacturing or selling products not conforming to such Standards and Publications, nor shall the existence of such Standards and Publications preclude their voluntary use by those other than EIA members, whether the standard is to be used either domestically or internationally.

Recommended Standards and Publications are adopted by EIA without regard to whether or not their adoption may involve patents on articles, materials, or processes. By such action, EIA does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the Recommended Standard or Publication.

This Standard does not purport to address all safety problems associated with its use or all applicable regulatory requirements. It is the responsibility of the user of this Standard to establish appropriate safety and health practices and to determine the applicability of regulatory limitations before its use.

EIA STANDARDS FOR ELECTRON TUBES

Section I - Cross Reference List

Section II - Current Bases

Section III - Current Gauges

(From EIA Standards Proposal No. 2046, formulated under the cognizance of the EIA JT-6 Committee on Tri-Color Cathode Ray Tubes.)

This Standard is similar to EIA-209-A, "Standard for Electron Tubes." EIA-209-A is essentially a reference document for older tubes. This standard covers current bases and gauges. It also contains a cross reference list of all known EIA assignments for bases, caps and gauges as well as standard drawings for current picture tube bases and gauges.
