THE ENGINEERING EQUIPMENT AND MATERIALS USERS ASSOCIATION

The Engineering Equipment and Materials Users Association—EEMUA—was formed in 1983 by the Amalgamation of the Oil Companies Materials Association (OCMA) and the Engineering Equipment Users Association (EEUA). It is an organisation of substantial purchasers and users of engineering products, whose members include leading national and multi-national companies in the petroleum, gas, chemical and energy industries. A list of Full and Associate Members (the latter being limited to membership of three technical committees) is given below. EEMUA is concerned with the design, installation, operation and maintenance of the engineering plant used by members in pursuing their business activities.

The Association aims to reduce members' costs by providing the opportunity for them to share resources and expertise in order to keep abreast of technological developments and improve the effectiveness and efficiency of their engineering activities. EEMUA supports the British Standards Institution, works with other institutions, associations, government departments, regulatory authorities and the Confederation of British Industry, and is also actively involved with other standards-making bodies, both national and international, such as the American Petroleum Institute.

Work, which is carried out in-house by members alone or with the help of other organisations, may lead to the production of Association publications. These are prepared primarily for members' use, but are usually offered for sale and thus for more general use. Such publications may also be submitted, normally through the British Standards Institution, as bases for appropriate national, European or international standards.

A list of current EEMUA Publications which may be purchased from the Association is given at the end of this document.

Full Members

Associated Octel
BG
BP Amoco
Caltex Petroleum
Conoco
Dow Corning
Eastern Generation
Esso/ExxonMobil
Eutech
Foster Wheeler Energy
Lindsey Oil Refinery
National Power
PowerGen
Shell

Associate Members

AstraZeneca
BASF
D&C Engineering/MERCON [Netherlands]
Elf Exploration UK
Flexsys
Phillips Petroleum UK
Pilkington Technology
Royal Vopak (was Royal Pakhoed)
[Netherlands]
Texaco
UOP
