# USE OF NON-METALLIC MATERIALS IN HIGH PRESSURE OXYGEN BREATHING GAS APPLICATIONS

As part of a programme of harmonisation of industry standards, the European Industrial Gases Association (EIGA) publication, EIGA Doc 73, *Use of Non-Metallic Materials in High Pressure Oxygen Breathing Gas Applications*, has been used as the basis of an internationally harmonised gas association's publication on this subject.

This publication is intended as an internationally harmonised publication for the worldwide use and application by all members of Asia Industrial Gases Association (AIGA), Compressed Gas Association (CGA), European Industrial Gases Association, (EIGA), and Japan Industrial and Medical Gases Association (JIMGA). Regional editions have the same technical content as the EIGA edition, however, there are editorial changes primarily in formatting, units used and spelling. Regional regulatory requirements are those that apply to Europe.

## Disclaimer

All technical publications of EIGA or under EIGA's name, including Codes of practice, Safety procedures and any other technical information contained in such publications were obtained from sources believed to be reliable and are based on technical information and experience currently available from members of EIGA and others at the date of their issuance.

While EIGA recommends reference to or use of its publications by its members, such reference to or use of EIGA's publications by its members or third parties are purely voluntary and not binding.

Therefore, EIGA or its members make no guarantee of the results and assume no liability or responsibility in connection with the reference to or use of information or suggestions contained in EIGA's publications.

EIGA has no control whatsoever as regards, performance or non performance, misinterpretation, proper or improper use of any information or suggestions contained in EIGA's publications by any person or entity (including EIGA members) and EIGA expressly disclaims any liability in connection thereto.

EIGA's publications are subject to periodic review and users are cautioned to obtain the latest edition.

**Table of Contents**

|     |                                                  |   |
|-----|--------------------------------------------------|---|
| 1   | Introduction .....                               | 1 |
| 2   | Scope and purpose .....                          | 1 |
| 2.1 | Scope .....                                      | 1 |
| 2.2 | Purpose .....                                    | 1 |
| 3   | Definitions .....                                | 2 |
| 3.1 | Publication terminology .....                    | 2 |
| 3.2 | Technical definitions .....                      | 2 |
| 4   | Safety considerations .....                      | 2 |
| 4.1 | System design .....                              | 3 |
| 4.2 | Cleanliness .....                                | 4 |
| 4.3 | Material susceptibility and toxicity risks ..... | 4 |
| 5   | Recommendations .....                            | 5 |
| 5.1 | Risk analysis .....                              | 5 |
| 5.2 | Specific recommendations .....                   | 5 |
| 6   | References .....                                 | 6 |
| 7   | Additional references .....                      | 7 |

**Amendments from 73/17**

| Section | Change               |
|---------|----------------------|
|         | There are no changes |

Note: Technical changes from the previous edition are underlined
