## Caution Notice

---

ESD Association standards and publications are designed to serve the public interest by eliminating misunderstandings between manufacturers and purchasers, facilitating the interchangeability and improvement of products and assisting the purchaser in selecting and obtaining the proper product for his particular needs. The existence of such standards and publications shall not in any respect preclude any member or non-member of the Association from manufacturing or selling products not conforming to such standards and publications. Nor shall the fact that a standard or publication is published by the Association preclude its voluntary use by non-members of the Association whether the document is to be used either domestically or internationally. Recommended standards and publications are adopted by the ESD Association in accordance with the ANSI Patent policy.

**Interpretation of ESD Association Standards:** The interpretation of standards in-so-far as it may relate to a specific product or manufacturer is a proper matter for the individual company concern and cannot be undertaken by any person acting for the ESD Association. The ESD Association Standards Chairman may make comments limited to an explanation or clarification of the technical language or provisions in a standard, but not related to its application to specific products and manufacturers. No other person is authorized to comment on behalf of the ESD Association on any ESD Association Standard.

(This foreword is not part of ESD Association Standard Practice SP9.2-2003)

## Foreword

This standard practice was developed to provide test methods for evaluating foot grounders and foot grounder systems used to electrically bond or ground personnel as part of an ESD Control Program. Static Control Shoes are tested using ANSI/ESD STM9.1.

This standard practice was processed and approved for submittal to the ESD Association Standards Committee by the 9.2 Foot Grounders Work Group. At the time it was approved, the Working Group had the following members:

Dale Parkin, Chair  
IBM Corporation

Brent Beamer  
Static Control Components, Inc.

Larry Burich  
Lockheed Martin

Steve Koehn  
3M Company

Mark Fancourt  
Lehigh Safety Shoe Co.

The following individuals made significant contributions to this document.

Michael J. Manders  
United States Air Force (USAF)

Anna Maria Steriti  
Wescorp

Bruce Lampert  
United Technical Products, Inc.

William Klein  
K&S Laboratories, Inc.

Paul Petersen  
3M Company

Alan Peters  
Lehigh Safety Shoe Co

## Table of Contents

|                                                                       |   |
|-----------------------------------------------------------------------|---|
| 1.0 PURPOSE AND SCOPE .....                                           | 1 |
| 1. 1 PURPOSE .....                                                    | 1 |
| 1. 2 SCOPE .....                                                      | 1 |
| 2.0 DEFINITIONS .....                                                 | 1 |
| 3.0 REFERENCED PUBLICATIONS .....                                     | 1 |
| 4.0 PERSONNEL SAFETY .....                                            | 1 |
| 5.0 LIMITS AND MARKING .....                                          | 2 |
| 5.1 LIMITS FOR LABORATORY EVALUATION TESTING .....                    | 2 |
| 5.2 LIMITS FOR COMPLIANCE VERIFICATION .....                          | 2 |
| 5.3 MARKING (LABELING) .....                                          | 2 |
| 6.0 TEST METHODS .....                                                | 2 |
| 6.1 LABORATORY EVALUATION TESTING OF FOOT GROUNDERS .....             | 2 |
| 6.1.1 EQUIPMENT .....                                                 | 2 |
| 6.1.2 TEST AND PRECONDITIONING ENVIRONMENT .....                      | 2 |
| 6.1.3 PROCEDURE .....                                                 | 2 |
| 6.2 COMPLIANCE VERIFICATION TESTING OF THE FOOT GROUNDER SYSTEM ..... | 3 |
| 6.2.1 EQUIPMENT .....                                                 | 3 |
| 6.2.2 PROCEDURE (INTEGRATED TESTER) .....                             | 3 |
| 6.2.3 PROCEDURE (INSTRUMENTATION) .....                               | 3 |
| 6.3 REPORTING .....                                                   | 4 |
| 6.3.1 LABORATORY EVALUATION TESTING .....                             | 4 |
| 6.3.2 COMPLIANCE VERIFICATION TESTING .....                           | 4 |
