

ED-89A Ch. 1

DATA-LINK APPLICATION SYSTEM DOCUMENT (DLASD) FOR THE "ATIS" DATA-LINK SERVICE - CHANGE 1

LEGAL NOTICE

This document is the exclusive intellectual and commercial property of EUROCAE. It is presently commercialised by EUROCAE. This electronic copy is delivered to your company/organisation for internal use exclusively. In no case it may be re-sold, hired, lent or exchanged outside your company. It may not be reproduced, in whole or in parts, without prior written permission by EUROCAE.

JULY 2023
COMPLEMENTS ED-89A

FOREWORD

1. This document was developed by EUROCAE Working Group 76 "AIS/MET Data Link Services", and was approved by the Council of EUROCAE on 19 July 2023.
2. This document complements ED-89A Data-Link Application System Document (DLASD) for the "ATIS" Data-Link Service (December 2003).
The document has been developed to align ED-89A to the publication by ICAO of the Global Reporting Format (GRF) for runway conditions.
As compared with the previous version, the main changes are:
 - Explaining the need for longer messages because of the implementation of the Global Reporting Format (GRF) and the potential impact on the performance of the Service.
3. EUROCAE, an international non-profit organisation, is the European leader in the development of worldwide recognised standards for aviation. This is achieved by utilising the expertise from our members and stakeholders across the global aviation community.
4. EUROCAE standards are developed following an open, transparent and consensus-based process, governed by process and quality management principles, which are clearly documented and is in line with the World Trade Organisation (WTO) Technical Barriers to Trade (TBT) Agreement, Annex 3 "Code of Good Practice for the Preparation, Adoption and Application of Standards".
5. EUROCAE standards and other deliverables are recommendations and best industry practices. EUROCAE is not an official body of the European governments. EUROCAE standards are intended to complement and support the regulatory and certification framework.
6. Whilst efforts are made during the standards-development process to avoid the inclusion of proprietary information and material, some of the elements of this document may be the subject of patent, copyright or other proprietary rights. EUROCAE shall not be held responsible for identifying any such rights. Trade names and similar terms used within this document do not constitute an endorsement by EUROCAE thereof.
