Internal Floating Roofs for Atmospheric Storage Tanks

GP 09-07-04

Scope

[I] This Global Practice (GP) covers the design, fabrication, erection, inspection, and testing of internal roofs for fixed roof atmospheric storage tanks. Unless otherwise specified, such roofs shall be per API STD 650-10 Appendix H, 10th Edition, Addendum 3, Sept 2003, as modified by this GP.

GP 09-07-04	Internal Floating Roofs for Atmospheric Storage Tanks	February 2005
-------------	---	---------------

1. Required References

[I] This Section lists Standards that shall be used with this GP. Unless otherwise specified herein, use the latest edition.

1.1. API–American Petroleum Institute

API STD 650-10	Welded Steel Tanks for Oil Storage Tenth Edition
----------------	--

1.2. ASTM–American Society for Testing and Materials

ASTM E 84	Standard Test Method for Surface Burning Characteristics of Building Materials
-----------	--

2. Modifications to API Standard 650

[I] The following paragraph numbers refer to API Standard 650 titled "Welded Steel Tanks for Oil Storage, Appendix H, Internal Floating Roofs," which is a part of this GP.

All headings contained herein correspond to paragraph numbering within API STD 650-10 and reflect additions, substitutions, modifications, and deletions. All provisions not modified or deleted remain in force.

Modifications to Section H.1: Scope

H.1.1. New

[I] For User Convenience, the beginning of each paragraph in this GP is noted as follows:

H.1.1.a. Addition

The paragraph specifies additions to the corresponding API paragraph.

H.1.1.b. Exception

The paragraph completely replaces the corresponding API paragraph.

H.1.1.c. Modification

The paragraph revises the corresponding API paragraph.

H.1.1.d. New

The paragraph does not appear in API Standard 650 and denotes new requirements.
