# Foreword

Approval Standards are intended to verify that the products and services described will meet stated conditions of performance, safety and quality useful to the ends of property conservation. The purpose of Approval Standards is to present the criteria for Approval of various types of products and services, as guidance for FM Approvals personnel, manufacturers, users and authorities having jurisdiction.

Products submitted for Approval shall demonstrate that they meet the intent of the Approval Standard, and that quality control in manufacturing and/or applications shall ensure a consistently uniform and reliable product or service. FM Approval Standards strive to be performance-oriented and to facilitate technological development.

For examining equipment, materials and services, Approval Standards:

- a) must be useful to the ends of property conservation by preventing, limiting or not causing damage under the conditions stated by the Approval listing; and
- b) must be readily identifiable.

Continuance of Approval and Listing depends on compliance with the Master Agreement, satisfactory performance in the field, on successful re-examinations of equipment, materials, and services as appropriate, and on periodic follow-up audits of the manufacturing facility or service/application.

FM Approvals LLC reserves the right in its sole judgement to change or revise its standards, criteria, methods, or procedures.

| <b>3 GENERAL REQUIREMENTS</b>                                         | 5  |
| 3.1 Review of Documentation                                           | 5  |
| 3.2 Markings                                                          | 5  |
| 3.3 Required Samples                                                  | 5  |
| 3.4 Formulations                                                      | 5  |
| 3.5 Manufacturer's Installation and Operation Instructions            | 6  |
| 3.6 Calibration                                                       | 6  |
| <b>4 PERFORMANCE REQUIREMENTS</b>                                     | 6  |
| 4.1 No-Spark on Impact                                                | 6  |
| 4.2 Test for Ignition of Flammable Chemicals                          | 6  |
| 4.3 Additional Tests                                                  | 7  |
| <b>5 OPERATIONS REQUIREMENTS</b>                                      | 7  |
| 5.1 Demonstrated Quality Control Program                              | 7  |
| 5.2 Facilities and Procedures Audit (F&PA)                            | 8  |
| 5.3 Manufacturer's Responsibilities                                   | 8  |
| <b>APPENDIX A: Units of Measurement</b>                               | 10 |
| <b>APPENDIX B: FM Approvals Certification Marks, Usage Guidelines</b> | 11 |
| <b>APPENDIX C: Test Procedure for No Spark on Impact</b>              | 13 |
| C-1 Introduction                                                      | 13 |
| C-2 Test Apparatus and Arrangement                                    | 13 |
| C-3 Test Specimen                                                     | 13 |
| C-4 Test Procedure                                                    | 13 |
| C-5 Performance Requirements                                          | 14 |
| <b>APPENDIX D</b>                                                     | 15 |
| D-1 Introduction                                                      | 15 |
| D-2 Test Apparatus and Arrangement                                    | 15 |
| D-3 Test Specimen                                                     | 15 |
| D-4 Test Procedure                                                    | 16 |
| D-5 Performance Requirement                                           | 16 |
