1 Scope and Application

The AC pressure PWM signal gives an information about the actual A/C pressure (Kühlmitteldruck im Kompressor) of the compressor.

GMI 12554 R, Part 15 determines the requirements. In addition to the requirements specified in GMI 12554, Part 1, the following requirements are applied:

2 References

2.1 Order of Precedence

The following order of precedence is valid for all of the requirements stated in this document:

1. Requirements stated in legal demands.
2. Requirements stated in the relevant specifications for the actual interface or signal (e. g. a VTS, Component drawing, etc.).
3. Requirements stated in this document.
4. Requirements stated in other GM International Standards.

Remark: In the event of a conflict between the English and the domestic language, the English language shall take precedence.
