American National Standard

Approval of an American National Standard requires verification by ANSI that the requirements for due process, consensus, and other criteria for approval have been met by the standards developer.

Consensus is established when, in the judgement of the ANSI Board of Standards Review, substantial agreement has been reached by directly and materially affected interests. Substantial agreement means much more than a simple majority, but not necessarily unanimity. Consensus requires that all views and objections be considered, and that a concerted effort be made toward their resolution.

The use of American National Standards is completely voluntary; their existence does not in any respect preclude anyone, whether he has approved the standards or not, from manufacturing, marketing, purchasing, or using products, processes, or procedures not conforming to the standards.

The American National Standards Institute does not develop standards and will in no circumstances give an interpretation of any American National Standard. Moreover, no person shall have the right or authority to issue an interpretation of an American National Standard in the name of the American National Standards Institute. Requests for interpretations should be addressed to the secretariat or sponsor whose name appears on the title page of this standard.

CAUTION NOTICE: This American National Standard may be revised or withdrawn at any time. The procedures of the American National Standards Institute require that action be taken periodically to reaffirm, revise, or withdraw this standard. Purchasers of American National Standards may receive current information on all standards by calling or writing the American National Standards Institute.

	Page
Foreword	iii
1 Scope.....	1
1.3 Units of Measure	1
1.4 Reference Standards	1
2 General Requirements	1
3 Design Requirements.....	1
4 Material Requirements	2
4.1 Concrete.....	2
4.1.2 Sealants	2
4.1.3 Lifting.....	2
4.1.4 Synthetic Fiber-Reinforced Concrete Tanks.....	2
4.1.5 Steel Fiber-Reinforced Concrete Tanks.....	3
4.1.6 Gaskets	3
4.2 Glass Fiber-reinforced Polyester.....	3
4.2.1 Terminology	3
4.2.2 Materials.....	3
4.2.3 Resin.....	3
4.2.4 Reinforcing Material	3
4.2.5 Fillers and Pigments.....	3
4.2.6 Laminate.....	3
4.2.7 Primary Chemical - Resistant Surface	4
4.2.8 Internal Anti-Wicking Barrier.....	4
4.2.9 Additional Structural Reinforcing Section	4
4.2.10 Layer or Body Laminate Requirements.....	4
4.2.11 Exterior Surface	4
4.2.12 Cut Edges	4
4.2.13 Wall Thickness.....	4
4.2.14 Mechanical Properties.....	4
4.2.15 Surface Hardness.....	4
4.2.16 Appearance.....	4
4.2.17 Shell Joints	4
4.2.20 Specimens	4
4.2.21 Physical Properties.....	4
4.3 Polyethylene	5
4.4 Coated Steel.....	5
5 Testing Requirements	5
5.1 Leakage Testing	5
5.1.1 Water Test	5
5.1.2 Vacuum Test	5
5.1.3 Air Test	5
6 Marking and Identification	6
 Appendix	
A Chemical Resistance.....	7
B Polyester Resin	8
