FOREWORD

ICEA publications are adopted in the public interest and are intended to promote product uniformity and quality throughout the industry. They are designed to eliminate misunderstanding between the manufacturer and user and to assist the user in selecting and obtaining proper products for the particular application. Existence of an ICEA publication does not in any respect preclude the manufacture or use of products not in conformance with this Guide.

Suggestions for improvements in this publication are welcome and should be sent to ICEA.

This Guide was developed by the Telecommunications Wire and Cable Standards Technical Advisory Committee whose membership consisted of technical experts from the manufacturing, user, and general interest segments of the industry.

The members of the ICEA Communications Cable Section, Working Group 647, who participated in this project were:

J. S. Tyler - Chairman
G. L. Dorna
T. McLaughlin

D. K. Baker
A. G. Dwyer
M. Silva
R. Westrick

R. Cuprak
T. Hardin
