American National Standard

An American National Standard implies a consensus of those substantially concerned with its scope and provisions. An American National Standard is intended as a guide to aid the manufacturer, the consumer, and the general public. The existence of an American National Standard does not in any respect preclude anyone, whether he has approved the standard or not, from manufacturing, marketing, purchasing, or using products, processes, or procedures not conforming to the standard. American National Standards are subject to periodic review and users are cautioned to obtain the latest editions.

CAUTION NOTICE: This American National Standard may be revised or withdrawn at any time. The procedures of the American National Standards Institute require that action be taken to reaffirm, revise, or withdraw this standard no later than five years from the date of publication. Purchasers of American National Standards may receive current information on all standards by calling or writing the American National Standards Institute.

Foreword

(This Foreword is not a part of ANSI/IEEE C37.13-1981, IEEE Standard for Low-Voltage AC Power Circuit Breakers Used in Enclosures.)

There has been a continuing goal toward consolidating various switchgear standards to reduce the number of different publications required to apply switchgear equipment. This standard is a consolidated edition including ANSI/IEEE C37.13-1973, IEEE Standard for Low-Voltage Power Circuit Breakers Used in Enclosures, and ANSI/IEEE C37.13a-1975, IEEE Standard for Low Voltage AC Integrally Fused Power Circuit Breakers. This new standard, Low Voltage AC Power Circuit Breakers Used in Enclosures, uses the same numbers as the similarly titled previous standard and incorporates both the fused and unfused circuit breaker standards in a single document and updates these standards to current practice and corrects minor errors that existed in the previous standard. In publishing this standard, the previous standard on Integrally Fused Power Circuit Breakers is rescinded.

The Standards Committee on Power Switchgear, C37, which reviewed and approved this standard, had the following personnel at the time of approval:

C. L. Wagner, *Chairman*

J. P. Lucas, *Secretary*

J. E. Beehler, *Executive Vice-Chairman of High Voltage Switchgear Standards*
W. E. Laubach, *Executive Vice-Chairman of Low Voltage Switchgear Standards*
S. H. Telander, *Executive Vice-Chairman of IEC Activities*

<i>Organization Represented</i>	<i>Name of Representative</i>
Association of American Railroads	<i>Vacant</i>
Association of Iron and Steel Engineers	J. M. Tillman
Electric Light and Power Group	K. G. Adgate
	J. E. Beehler
	R. L. Capra (<i>Alt</i>)
	H. G. Darron
	H. F. Frus
	K. D. Hendrix
	R. L. Lindsey (<i>Alt</i>)
	E. E. Ramm (<i>Alt</i>)
	F. R. Solis
Institute of Electrical and Electronics Engineers	M. J. Beachy (<i>Alt</i>)
	R. N. Bell (<i>Alt</i>)
	H. H. Fahnoe
	R. E. Friedrich
	M. J. Maier
	C. A. Mathews (<i>Alt</i>)
	D. C. Musgrave (<i>Alt</i>)
	G. W. Walsh
	H. F. White
National Electrical Manufacturers Association.	A. P. Colaiaco
	R. W. Dunham
	D. G. Portman
	G. A. Wilson
	W. R. Wilson
Tennessee Valley Authority.	Robert C. St. Clair
Testing Laboratory Group.	L. Frier
	E. J. Huber
	R. W. Seelbach (<i>Alt</i>)
U.S. Department of the Army	Robert H. Bruck
U.S. Department of the Interior, Bureau of Reclamation.	Edward M. Tomsic
U.S. Department of Defense, Defense Communications Agency	<i>Vacant</i>
U.S. Department of the Navy, Naval Facilities Engineering Command	D. M. Hannemann

At the time it approved this standard the Low-Voltage Switchgear Devices Subcommittee had the following membership:

J. R. Truitt, *Chairman*

R. J. Alton	J. F. Sellers
J. T. Carroll	F. J. Shields
J. L. Drown	F. C. Teufel
E. J. Huber	E. F. Troy
W. A. Mathews	J. P. Werner

The working group of the Low-Voltage Switchgear Devices Subcommittee that prepared the revision of this standard were:

J. R. Truitt, *Chairman*

R. J. Alton	E. J. Huber
J. L. Drown	R. A. McMaster

J. P. Werner

When the IEEE Standards Board approved this standard on September 27, 1979, it had the following membership:

Joseph L. Koepfinger, *Chairman*

Irvin N. Howell, Jr., *Vice Chairman*

Ivan G. Easton, *Secretary*

G. Y. R. Allen	Harold S. Godlberg	J. E. May
William E. Andrus	Richard J. Gowen	Donald T. Michael*
C. N. Berglund	H. Mark Grove	R. L. Pritchard
Edward Chellotti	Loering M. Johnson	F. Rosa
Edward J. Cohen	Irving Kolodny	Ralph M. Showers
Warren H. Cook	W. R. Kruesi	J. W. Skooglund
R. O. Duncan	Leon Levy	W. E. Vannah
Jay Forster		B. W. Whittington

*Member emeritus
