Preface

This preface is included for informational purposes and is not part of ISA-RP42.1-1992.

This recommended practice has been prepared as part of the service of ISA toward a goal of uniformity in the field of instrumentation. To be of real value, this document should not be static, but should be subject to periodic review. Toward this end, the Society welcomes all comments and criticisms, and asks that they be addressed to the Secretary, Standards and Practices Board, ISA, 67 Alexander Drive, P.O. Box 12277, Research Triangle Park, NC 27709, Telephone (919) 549-8411, e-mail: standards@isa.org.

The ISA Standards and Practices Department is aware of the growing need for attention to the metric system of units in general, and the International System of Units (SI) in particular, in the preparation of instrumentation standards. The Department is further aware of the benefits to U.S.A. users of ISA standards of incorporating suitable references to the SI (and the metric system) in their business and professional dealings with other countries. Toward this end, this Department will endeavor to introduce SI-acceptable metric units in all new and revised standards to the greatest extent possible. *The Metric Practice Guide*, which has been published by the Institute of Electrical and Electronics Engineers as ANSI/IEEE Std. 268-1982, and future revisions, will be the reference guide for definitions, symbols, abbreviations, and conversion factors.

It is the policy of ISA to encourage and welcome the participation of all concerned individuals and interests in the development of ISA standards. Participation in the ISA standards-making process by an individual in no way constitutes endorsement by the employers of the individual, of the ISA, or of any of the standards that ISA develops.

The following people served as members of ISA Committee RP42:

NAME	COMPANY
W. D. Wilson	Crawford Fitting Company
F. Zikas	Parker Hannifin Corporation
K. L. Hopkins	BP America
B. J. Traylor	Sandwell, Inc.
B. Fogleman	Fogleman Company
R. Lacluyse	Lesman Instrument Company

This recommended practice was approved for publication by the ISA Standards and Practices Board on September 30, 1991.

NAME	COMPANY
J. Rennie	Factory Mutual Research Corporation
W. C. Weidman	Gilbert/Commonwealth, Inc.
H. D. Bauman	H. D. Bauman & Associates
D. N. Bishop	Chevron USA. Inc.
C. R. Gross	Dow Chemical
H. S. Hopkins	Utility Products of Arizona
