Preface

This preface, as well as all footnotes and annexes, is included for informational purposes and is not part of ISA-RP75.21-1989 (R1996).

This recommended practice has been prepared as part of the service of ISA, the international society for measurement and control, toward a goal of uniformity in the field of instrumentation. To be of real value, this document should not be static, but should be subject to periodic review. Toward this end, the Society welcomes all comments and criticisms and asks that they be addressed to the Secretary, Standards and Practices Board; ISA; 67 Alexander Drive; P. O. Box 12277; Research Triangle Park, NC 27709; Telephone: (919) 549-8411; Fax: (919) 549-8288; E-mail: standards@isa.org.

The ISA Standards and Practices Department is aware of the growing need for attention to the metric system of units in general, and the International System of Units (SI) in particular, in the preparation of instrumentation standards, recommended practices, and technical reports. The Department is further aware of the benefits to U.S.A. users of ISA standards of incorporating suitable references to the SI (and the metric system) in their business and professional dealings with other countries. Toward this end, this Department will endeavor to introduce SI-acceptable metric units in all new and revised standards to the greatest extent possible. *The Metric Practice Guide*, which has been published by the Institute of Electrical and Electronics Engineers as ANSI/IEEE Std. 268-1992, and future revisions will be the reference guide for definitions, symbols, abbreviations, and conversion factors.

It is the policy of ISA to encourage and welcome the participation of all concerned individuals and interests in the development of ISA standards, recommended practices, and technical reports. Participation in the ISA standards-making process by an individual in no way constitutes endorsement by the employer of that individual, of ISA, or of any of the standards, recommended practices, and technical reports that ISA develops.

The following people served as members of ISA Subcommittee SP75.15:

NAME	COMPANY
G. Barb, Chairman	Consultant
W. Weidman, Managing Director	Consultant
G. Borden, Jr.	Consultant
G. Kovacs	Keystone Yarway
C. Mates	Mates Associates, Inc.
D. Rapley	Rapley Engineering Services

The following people served as members of ISA Committee SP75:

NAME	COMPANY
D. Buchanan, Chairman	Union Carbide Corporation
W. Weidman, Managing Director	Consultant
*T. Abromaitis	Red Valve Company, Inc.
J. Arant	JBA Consulting Company
H. Backinger	J. F. Kraus & Company

*One vote per company
