UDC 681.62.061.2

Ref. No. ISO 2133-1976 (E)

Descriptors : office machines, stencils, specifications, layout, dimensions.

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO council.

International Standard ISO 2133 was drawn up by Technical Committee ISO/TC 95, *Office machines*. This second edition was circulated to the Member Bodies in March 1975.

It has been approved by the Member Bodies of the following countries :

Bulgaria	Ireland	United Kingdom
Czechoslovakia	Italy	U.S.S.R.
France	Romania	Yugoslavia
Germany	Sweden	
Iran	Turkey	

The Member Bodies of the following countries expressed disapproval of the document on technical grounds :

Japan
U.S.A.

This second edition cancels and replaces the first edition (i.e. ISO 2133-1972).
