Descriptors : ships, signal devices, signal lamps, signal lights, colour.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 2412 was developed by Technical Committee ISO/TC 8, *Shipbuilding and marine structures*, and was circulated to the member bodies in May 1981.

It has been approved by the member bodies of the following countries :

Austria	Germany, F.R.	Portugal
Belgium	India	Romania
Brazil	Italy	Spain
Bulgaria	Korea, Dem. P. Rep. of	Sweden
China	Korea, Rep. of	Thailand
Cuba	Mexico	United Kingdom
Czechoslovakia	Netherlands	USSR
Egypt, Arab Rep. of	Norway	
France	Poland	

The member body of the following country expressed disapproval of the document on technical grounds :

Japan

This second edition cancels and replaces the first edition (i.e. ISO 2412-1972).
