UDC 633.82.001.41

Ref. No. ISO 2825-1981 (E)

Descriptors : agricultural products, spices, chemical analysis, samples, test specimens, preparation.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 2825 was developed by Technical Committee ISO/TC 34, *Agricultural food products*.

This second edition was submitted directly to the ISO Council, in accordance with clause 5.10.1 of part 1 of the Directives for the technical work of ISO. It cancels and replaces the first edition (i.e. ISO 2825-1974), which had been approved by the member bodies of the following countries :

Austria	Iran	South Africa, Rep. of
Bulgaria	Israel	Sri Lanka
Czechoslovakia	Netherlands	Thailand
Egypt, Arab Rep. of	New Zealand	Turkey
France	Norway	United Kingdom
Hungary	Poland	USSR
India	Romania	

This International Standard had also been approved by the International Union of Pure and Applied Chemistry (IUPAC) and by the Association of Official Analytical Chemists (AOAC).

No member body had expressed disapproval of the document.
