Radiators, convectors and similar appliances — Determination of thermal output — Test method using liquid-cooled closed booth

Radiateurs, convecteurs et appareils similaires — Détermination de la puissance thermique — Méthode d'essai en chambre fermée à refroidissement par liquide

First edition — 1975-07-01

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3149 was drawn up by Technical Committee ISO/TC 116, *Space-heating appliances*, and circulated to the Member Bodies in September 1973.

It has been approved by the Member Bodies of the following countries :

Australia	France	South Africa, Rep. of
Belgium	Germany	Thailand
Bulgaria	Ireland	Turkey
Canada	Italy	United Kingdom
Czechoslovakia	Netherlands	Yugoslavia
Denmark	Norway	
Egypt, Arab Rep. of	Romania	

No Member Body expressed disapproval of the document.
