Broadleaved wood raw parquet blocks — Classification of beech parquet blocks

Frises brutes en bois feuillus pour parquets — Classement des frises de hêtre

First edition — 1976-04-01

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3399 was drawn up by Technical Committee ISO/TC 99, *Semi-manufactures of timber*, and circulated to the Member Bodies in May 1974.

It has been approved by the Member Bodies of the following countries :

Austria	Italy	Spain
Bulgaria	Netherlands	Thailand
France	Norway	Turkey
Germany	Poland	Yugoslavia
Hungary	Romania	
Ireland	South Africa, Rep. of	

The Member Bodies of the following countries expressed disapproval of the document on technical grounds :

Czechoslovakia
U.S.S.R.
