Ref. No. ISO 3569-1976 (E)

Descriptors : handling equipment, continuous handling, unit loads, classifications.

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3569 was drawn up by Technical Committee ISO/TC 101, *Continuous mechanical handling equipment*, and was circulated to the Member Bodies in February 1975.

It has been approved by the Member Bodies of the following countries :

Austria	France	South Africa, Rep. of
Belgium	Germany	Spain
Bulgaria	Ireland	Sweden
Chile	Japan	Turkey
Denmark	Netherlands	United Kingdom
Finland	Romania	Yugoslavia

The Member Body of the following country expressed disapproval of the on technical grounds :

Czechoslovakia
