Descriptors : viticulture, viticultural and wine making equipment, vocabulary/**Descripteurs** : viticulture, matériel viti-vinicole, vocabulaire.

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3835/II was developed by Technical Committee ISO/TC 23, *Tractors and machinery for agriculture and forestry*, and was circulated to the member bodies in February 1976.

It has been approved by the member bodies of the following countries :

Australia	India	South Africa, Rep. of
Austria	Iran	Spain
Canada	Italy	Sweden
Czechoslovakia	Mexico	Switzerland
France	Poland	Turkey
Germany	Portugal	Yugoslavia
Hungary	Romania	

No member body expressed disapproval of the document.
